SAHIL SHAIKH

Prompt Engineer

sahil.shaikh24@aiml.sce.edu.in

GitHub | [LinkedIn Profile] | [LeetCode] | [Portfolio Link]

PROFESSIONAL SUMMARY

Prompt Engineering–focused CSE(AIML) student with hands-on experience controlling and evaluating LLM behavior in real-world applications. Skilled in designing structured prompt pipelines, chaining, and context injection to improve accuracy and reduce hallucinations, with strong emphasis on reliability, evaluation, and production-ready integration.

CORE PROMPT ENGINEERING SKILLS

- **Prompt Design & Control**: Prompt Engineering, Prompt Chaining, Role Prompting, Instruction Tuning, Context Injection, Output Constraints
- **LLM Evaluation:** Hallucination Reduction, Consistency Testing, Semantic Scoring, Prompt Iteration & A/B Testing
- **LLM Systems:** Retrieval-Augmented Generation (RAG), Context Grounding, Response Verification
- **Frameworks & Tools**: LangChain, Hugging Face Transformers, Sentence Transformers, Flan-T5, RoBERTa
- **Backend & Integration**: Python, Flask, REST APIs, GitHub

PROJECTS

CyberArena | LLMs, Virtual Machine, Agentic AI, Cybersecurity **- [Github] | [Details]**

- A modular, browser-based platform that uses autonomous LLM-powered AI agents to perform and evaluate cybersecurity tasks inside isolated virtual machines, featuring configurable objectives, controlled tool execution, multi-agent orchestration, real-time monitoring, and performance evaluation using locally hosted open-source LLMs.

Context-Aware RAG System | Prompt Engineering, RAG, LLM Control - [Github]

- Designed structured prompt templates that dynamically inject retrieved context into LLM inputs, ensuring grounded and factual responses. - Implemented prompt chaining and response validation to cross-check generated outputs against source documents. - Reduced hallucinations by ~40% through controlled prompting and retrieval-aware answer verification.

EXPERIENCE

International IT & AI Summer Intern — Ural Federal University (UrFU)
Jul 2026 | Yekaterinburg, Russia (On-site)

- Collaborated with international teams for AIML and Gen AI projects, contributing to development, debugging, and technical discussions.

AI Developer Intern — Banao Technologies
Jan 2026 – Jul 2026 | Remote

- Built and deployed AI-powered applications using LLMs, FastAPI, backend services, and automation workflows.
- Contributed to production AI systems involving RAG pipelines, intelligent assistants, and AI feature development.

Machine Learning Intern — Orinson Technology Pvt. Ltd.
Dec 2024 – Jan 2025 | Remote

- Contributed to ML involving Python, model development, data preprocessing, and open-source collaboration.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science Engineering (AIML)

Saraswati College of Engineering, University of Mumbai | 2023 – 2027 (Expected)

- **CGPA**: 9.64 / 10 (Top 1%)
- Ranked **1st in Academics** during 1st year (Average SGPA: 9.74)
- Relevant Coursework: NLP, Deep Learning, Machine Learning, Computer Vision, Data Structures & Algorithms

CERTIFICATIONS

- AI/DS & Machine Learning - Oracle Certified Professional and Udemy
- Generative AI & AI Foundations - Oracle Certified
- AI Agent Architecture – IBM SkillsBuild
- Prompt Designing – IBM SkillsBuild
